Give your operation an edge.

Knowledge right at your fingertips.

With SCiO Cup you're empowered to always make the optimal decision. Immediate analysis improves efficiency (and the bottom line) right in the field.

And the cloud-based app tracks everything you test, allowing you to see trends across time. Plus, the app is intuitive, works on or offline and helps you monitor your operation.

Easy
to use:

1 FILL WITH DRY MATTER

2 CLICK THE BUTTON

3 GET RESULTS WITHIN 10 SECONDS

More tests means more accuracy.

SCiO Cup lets you test a large swath of samples, which improves the accuracy of your dry matter testing. So whether rain, snow or something unexpected, you can be confident your measurements are up-to-the-minute accurate.

And SCiO Cup is built for continual use. It's rugged, shock resistant and you can scan up to 400 samples on one charge.

SCiO CUP MEASURES:

GREEN CHOP: Corn, Haylage, Small grains, Green Chop Small Grains
GRAINS: Soybeans, Corn, Wheat, Barley
